Dear Chris:

I can't express enough praise for the commendable results from the drilling you did at the Lake – Incredible Job!

The water testing revealed absolutely pure water; could not have been better – with notable comments that we could now bottle it and sell. We look forward to coming home next summer to hook it up, pipe it in and enjoy.

We greatly appreciate your efforts on our behalf and thank you very much for the improvements at both houses.

We'll see you in the Spring and wish you a safe and quick Winter.

Sincerely,
